Nepal is a rich country of nature and biodiversity. It is a landlocked country. Nepal has so many various activities for travelers and one of those activities is volunteer trip in Nepal, working as volunteer work in a rural part of Nepal is making something different life experiences in your lifetime whether there having your time with local people you can also be helped the people of remotest areas by your small distributing. Nepal is rich for cultural and natural wherever as you work in Every single place have own life story of Nepalese people. And language will be quite hard to understand for people from those areas but they can be more responded by their physical structure like lapping. It is the only country where you can see one of the best hospitality and traditional. People are very friendly with the nice hearts we greeted our respected guests' for their support and help as we need. Nepal Wide adventure has been leading the volunteer groups since 2008 and we have been doing really amazing work with every single group in Nepal, every year our groups would prefer for volunteering works doing as reconstruction schools, houses, paths, and gumba, etc. we handle every group to make a something different work than before and make remarkable memories of your holidays having your holidays with people from homeless or jobless in remotest areas of Nepal in Himalaya.
